Dear Mr. Terreni:

Subject: Electric Power Connection to Residence; Notice

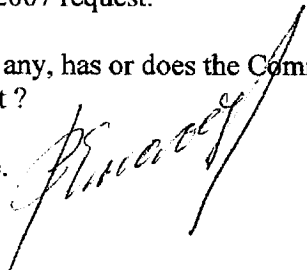

Ref: Progress Energy Petition No. 2004-219-E
Previous Correspondence, Medical Certificates and Requests
for Power Filed With the Commission by Respondent

Please be advised that my previous requests for Petitioner Progress Energy to connect electric power to my personal residence at the above address have been ignored to date; and the Commission has taken no action to ensure my personal and property safety during serious heat and cold waves, in the past and at present..

The present serious heat wave exceeding 100 degrees F. for one week, and high humidity, causes me to repeat herewith immediate action by the Commission to ensure electric power is connected as previously requested to ensure my safety..

Please refer to medical certificates duly filed with the Commission and the Petitioner.

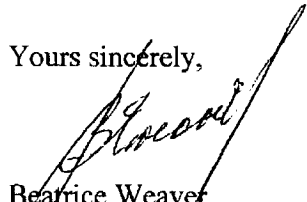

Notice:

Formal notice is hereby filed for the record, that I am holding any and all public and private parties, directly and indirectly responsible for such action to ensure my safety under adverse weather conditions deemed detrimental to the elderly, jointly and separately liable and accountable for any and all damages and losses to my person and property as a proximate result of your collective dereliction of duty and responsibility under the relevant statutes and regulations. (ELDER)

Such persons include the Commission, each of the Commissioners personally, the senior staff of the Commission, O.R.S. and its senior staff, Progress Energy, Mr. Len Anthony, Mr. Cagle and Ms. Pam Hardy.

Your immediate attention to curing this matter is respectfully requested.

Yours sincerely,

Noto Bene:

1. I do not owe PEC one red cent, and never have.
 2. The Commission has not done its duty and investigated PEC claims in this case, despite my numerous requests.
 3. Again, for the record, ~~the~~ doctrine of necessities does not apply in this case.
 4. Your response to my recent pleadings is now many weeks overdue.
 5. Perish the thought that this matter is over.
